

# 18<sup>th</sup> INTERNATIONAL RESEARCH CONFERENCE IN SERVICE MANAGEMENT LA LONDE SERVICE CONFERENCE

Porquerolles Island, France May 20-23, 2024

The first **International Research Conference in Service Management** was held in 1990, with the aim of overcoming traditional boundaries between disciplines. The year 2024 marks the 18<sup>th</sup> edition of this conference. By enabling thorough and fruitful exchange between a diverse group of participants, this conference has proven itself successful throughout the years.

The conference will take place on the magnificent and car-free [Porquerolles Island](#).

The conference has a unique positioning. There are **only two competitive sessions** occurring at the same time, and participants spend **more time discussing the paper than presenting it**. Each author has **45 minutes (full paper submission) or 15 minutes (extended abstract submission)** to present the paper and lead a discussion with the audience. At each session, both academics and professionals participate in debates, dialogs, and formal presentations. Many participants have established new networks or rejuvenated old ones to exchange ideas and knowledge. Friendliness and informality are part of the tradition of the event, greatly enhanced by the beautiful setting in a Mediterranean seashore environment. In addition to the rich intellectual exchange, the conference provides a visit to the [Fondation Carmignac](#) or to a vineyard in Porquerolles Island.
